

# SHALIN SHETH

React Native & MERN Stack Developer

Vadodara, India — +91 9016818988 — shethshalin222@gmail.com — linkedin.com/in/shalin-sheth-179595200

## Professional Summary

---

React Native-focused Full Stack Developer with **3 years of professional experience** building scalable, production-ready mobile and web applications. Strong expertise in **React Native, Redux, MERN Stack, and Ionic React**. Experienced in payment gateway integration, third-party APIs, AWS deployments, role-based systems, real-time features, and performance-optimized UI. Currently working at Redspark Technologies and actively seeking new opportunities focused on mobile-first development.

## Technical Skills

---

**Mobile Development:** React Native, Redux, Responsive UI, Modular Folder Architecture

**Frontend:** React.js, Redux, Ionic, Ionic React, Capacitor

**Backend:** Node.js, Express.js, NestJS

**Databases:** MongoDB, Mongoose, SQL, Sequelize.js

**Cloud & Tools:** AWS (EC2, S3), Firebase, GitHub

**Integrations:** Stripe, PhonePe, Airwallex, REST APIs

## Professional Experience

---

### React Native & MERN Stack Developer

2024 – Present

Redspark Technologies

- Developed and maintained multiple production-grade mobile and web applications across healthcare, fitness, B2B networking, education, astrology, and construction domains
- Built scalable React Native applications with clean architecture, reusable components, and optimized Redux state management
- Integrated third-party APIs, payment gateways, cloud services, and real-time features

## Key Projects

### SUID – Astrology & Horoscope Platform

- Migrated application database from **SQL to MongoDB** by converting relational schemas into optimized JSON structures
- Integrated **AI-based video generation APIs** for automated content creation
- Implemented **AWS S3** for secure image storage, retrieval, and media management
- Tech Stack: Node.js, Express.js, MongoDB, Mongoose, React.js, Redux

### B2B Hunters – Lead Generation & Networking Platform

- Developed a LinkedIn-style **B2B lead generation platform** with Web App, CMS, and mobile support
- Built cross-platform applications using **Ionic React, Capacitor, and Redux**
- Implemented scalable UI architecture and advanced filtering for lead discovery

### Gnymble – Online Doctor Platform

- Developed backend services using **Node.js, NestJS, and Sequelize.js**
- Implemented **cron jobs** for scheduled messaging and notifications
- Deployed applications on **AWS servers** and managed code using GitHub

## Mobile Application Experience (React Native)

---

### Presidency Club App – Membership & Ticket Booking

- Implemented online ticket booking with **QR code scanning**
- Added membership discounts and points-based benefits

### BY Pilates – Pilates Booking App

- Developed booking system with **Airwallex payment gateway integration**

### Tree Hole – Messaging App

- Built real-time messaging functionality using **Firebase**

### GSEDU – Student Tutor Matching App

- Implemented two user roles with seamless role switching
- Managed bottom tab navigation and role-based UI flows

### Shayek – URL Safety Detection App

- Developed URL analysis application with clean folder architecture
- Optimized responsive layouts and Redux state handling

### EFCS – Construction System App (Ongoing)

- Developing role-based React Native app for Admin, Foreman, Company, and Worker
- Implemented attendance management with **live location tracking**
- Built reports, graphs, and analytics dashboards

## Previous Experience

---

### MERN Stack Developer Barodaweb

2023 – 2024

- Developed E-commerce web application with **PhonePe payment gateway integration**
- Built OPD management system with reporting and advanced data filtering

## Education

---

### Bachelor's Degree Parul University

2019 – 2023

## Additional Information

---

Total Experience: **3 Years**

Preferred Role: **React Native Developer / Mobile Application Engineer**

Availability: Actively seeking a job change
